

COMPACT WASHERS AND DRYERS

SWNMN1 Electric Washer

SDE807 Electric Dryer

SDG809 Gas Dryer

SSE807 Stacked Electric Dryer

MADE IN AMERICA, BUILT TO LAST SINCE 1908

THE BEST IN CLASS JUST GOT **BETTER**

For more than a century, Speed Queen has been at the forefront of the industry, building our legacy by providing equipment that stands up to any commercial laundry challenge.

We make no compromises in performance and refuse to be outdone in reliability and efficiency. And our commitment to quality is only matched by our commitment to your success, delivering you the most profitable machines in the industry, bar none.

Unlike some competitors Speed Queen machines are built specifically for the commercial environment; we use metal where others use plastic and our world-class test lab rigorously pushes our products far beyond the conditions they'll face in the field.

For commercial laundry equipment designed for use in student accommodation, military, mining, spas, hair salons, sporting organisations or any other industry application, you can rely on the tried, tested and proven performance of Speed Queen, to make your life simpler and more productive.

Industry leading manufacturing in the USA, refined for more than a century and built to last, Speed Queen Laundry equipment represents a secure investment for your on-premises laundry facility.

DEDICATED TO A HIGHER STANDARD

Uncomplicated. Uncompromising. Unmatched. Enjoy heavy-duty construction that will provide reliable operation for years to come.

Our tumble dryers are designed with fewer moving parts, so that you'll face fewer maintenance problems and less wear and tear. We make it even easier with a large, easy-to-clean lint compartment and a heavy-duty door hinge designed to withstand heavy usage.

DRYERS SDE807 & SDG809

These 9kg manually operated electric and gas dryers feature:

- Extra-large capacity for large loads.
- Durable, easy to use controls for low maintenance costs well suited to high volume multiple operator applications.
- 1914 cm² door opening, largest in industry.
- Reversible door and multiple venting options for versatile install options.
- Easy to access up front lint filter.
- Powerful blower for faster drying.
- 4 inch rear duct for maximum moisture extraction.
- 100% front service dryer reduces maintenance time and costs ensuring maximum availability.
- Rear controls matching the SWNMN1 top load washer for perfect pairing of both capacity and style.
- Designed for durability and ease of use with push to start switch and reinforced control knobs.

WASHER SWNMN1

This 6.5kg manually operated electric washer features:

- Designed for durability and ease of use with push to start switch and reinforced control knob.
- Extra-large capacity stainless steel tubs keep clothes looking their best.
- Advanced suspension system reduces the occurrence of an unbalanced load.
- High spin speeds improves moisture extraction.
- Commercial quality fully metal transmission with only six moving parts, offers highest quality and durability.

DRYER SSE807

This 9kg manually operated stacked electric dryer features:

- Durable, easy to use controls for low maintenance costs well suited to high volume multiple operator applications.
- 100% front service dryer reduces maintenance time and costs ensuring maximum availability.
- 2 x 9kg dryers stacked in the floor space of one.
- At 1914cm² this industry leading extra-large door opening makes loading and unloading easier.
- Largest door opening in industry.
- 3 year warranty on any part on the entire machine.
- Simple to use Time Only controls.
- Simple to operate heat settings.
